MITCHLETT SHORTHORN DISPERSION

THURSDAY

OCTOBER 8, 1970

LEON, KANSAS

BUY YOUR CLUB CALVES HERE

The large number of calves selling at foot of their dams are ideal for 4-H club members. In the past juniors have had great success with their Mitchell steers and heifers. Young Clay Mitchell exhibited the champion steer, heifer and cow with calf this year at the Butler County Fair as he has in most previous years.

This group of Scotsdale Radium daughters was photographed a year ago. Most of them have calves at foot now and all sell on October 8.

MITCHLETT FARMS SHORTHORN DISPERSION

THURSDAY, OCTOBER 8, 1970

At Mitchlett Farms

LEON, KANSAS

SALE STARTS AT 12:30 P.M.

GENERAL SALE INFORMATION

TIME — Thursday, October 8, 1970, at Mitchlett Farm, Leon, Kan. Sale begins at 12:30 p.m.

LOCATION — Mitchlett Farm is located near Leon, Kan., which is on Highway 54, seven miles south of ElDorado.

TELEPHONE — (316) 745-3380.

GUARANTEE — This being a dispersion, the following guarantee applies. All bulls are guaranteed breeders. All females with calves at foot are considered breeders and no further guarantee is given. Cows checked safe in calf are considered breeders and no further guarantee is given. Open heifers or calves at foot cannot be guaranteed.

INSURANCE — Will be available from the clerks.

TERMS — The terms of the sale are cash. Settlements are to be made with the clerks at the conclusion of the auction and before any purchases are removed.

HEALTH — All cattle will comply with the health regulations of the state of Kansas and health certificates will be provided. All cattle will have passed negative tests for both brucellosis and tuberculosis.

LIABILITY — The above guarantee and terms shall constitute a contract between the seller and buyer of each lot. Those working on the sale have been employed by the sellers for specific promotional and clerical tasks not connected with the condition of the premises and they accept no liability for the contract or for any accident that may occur. Where footnotes appear in this catalog, they were furnished by the owners. The owners will not be responsible for any accidents, but they will make every effort to provide for the safety and comfort of those attending.

TRANSPORTATION — Leon, Kan., is only 25 miles from Wichita which is a transportation center and is served by the largest airport in the state. Good rail and bus connections are also available. Given advance notice to the sale manager, your plane or train will be met. For those who prefer, rental cars are available at the airport.

SALE HEADQUARTERS — The ElDorado Motel, 1111 E. Central, ElDorado, Kansas.

ACCOMMODATIONS — **ElDorado**, 1111 E. Central. 3 miles east of Turnpike exit east Highway 54, 1 mile east of Central and Main Inter. From the farm north 7 miles to ElDorado. Phone (316) 321-3610.

Sunset Motor Lodge, 1901 W. Central. Just east of Turnpike exit. From farm north 7 miles to ElDorado, to Central and Main, then west one mile. Phone (316) 321-6701.

LUNCH — A ladies church organization will have lunch available on sale day.

MAIL ORDERS — Those unable to attend may send buying orders to any of the following reliable men, all of whom will attend, or to Mitchlett Farm.

C.D. Swaffar, executive secretary, American Shorthorn Ass'n, 8288 Hascall St., Omaha, Neb. 68125. Tel: (402) 393-7200.

Dick Kane, auctioneer, Wisner, Neb.

HARRIS SIMONS, Sale Manager
16 S. Locust Street Tel: (312) 896-8511
Aurora, Illinois 60506

These young bulls are all by Mitchlett Blockbuster and all sell October 8.

Welcome to Mitchlett

It is with a mixture of pride and regret that the children, Wanda and I offer our Shorthorns October 8. They represent the planning and hopes of 18 years that we will be selling to you on that day.

Every female of breeding age is either with calf or has a calf at side. Most are three-in-one combinations.

In the past, some have called our cattle a little stringy. The same today have changed their thinking. Check the performance records of the herd. While the herd is above average in size, we have insisted on retaining breed character.

The brood cows here must produce and perform. The bull battery speaks for itself.

Although this is a dispersion of the herd, we will continue to be closely associated with the breed through the research center.

Several have asked why this dispersion. The one and only reason is that we need the money. I can assure you there will again be Reds, Whites and Roans grazing Mitchlett Farms. They are the best and Shorthorn people are the best.

Sincerely,

Clarence

Clarence A. Mitchell

SCOTSDALE RADIUM, AAA — A ton on pasture, this son of the International grand champion, Scotsdale Jupiter, and out of a Drynie Conquest daughter was known for his exceptional muscling. The average of all progeny tested was: weaning weight, 590 pounds; yearling weight 1,007 pounds; official 140-day gain 3.76 pounds. Sons on summer test at National Shorthorn Research Center averaged 3.41 pounds per day gain at 112 days. Sons and daughters have competed well in the showing and daughters have proven their great producing ability. All have abundant breed character. He is the sire of 14 females and 5 bulls selling.

Mitchlett Blockbuster as he looked on pasture at Mitchlett Farms early this summer.

MITCHLETT BLOCKBUSTER — By KC Blockade by Louada Blockbuster, he is out of Waymore Surprise D by Camson Cock Robin, another ton sire with more length than we have seen in most bulls. He is now in service for W. B. Hughes, Jr., Janesville, Wis. The average of all his progeny tested is 3.12 pounds gain per day. Of 91 bulls tested, his sons recorded the highest weight per day of age, highest sire group average, and the lowest feed efficiency figure. Progeny cutability average is .74, better than the entire all-breed national average. Blockbuster himself weighs more than a ton, with great length. He is the sire of Mitchlett Bulldozer, world's fastest gaining Shorthorn that is selling in this sale.

E J F GOOD NEWS 14th x — He was our choice of the polled bulls at the National Shorthorn Research Center Spring Sale. This bull is modern plus. He weaned at more than 500 pounds with a yearling weight of 1,000 pounds plus. He gained 3.82 pounds a day coming off test at 1,035 pounds when barely a year old. He grew on to 1,350 pounds at 15 months while serving cows. W. B. Hughes, Jr., saw and liked the bull and his record, so he is at home in Janesville, Wis.

MITCHLETT BULLDOZER — Quality Performance. Dark roan, world's fastest gaining Shorthorn — what a fellow!

Record

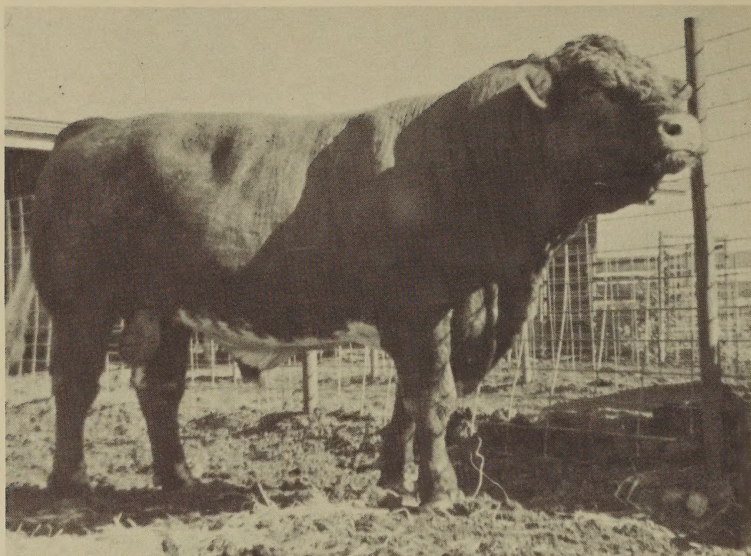

Weaning weight 615 pounds. Yearling weight 1,119 pounds.

12.79 square inches of ribeye at 13 months.

Off test on March 5 at 14 months weighing 1,265 pounds after a 16 hour shrink.

There's no stopping him. Now only 18 months, he tips scales at 1,545 pounds and is in service on pasture. He's all frame and muscle. Correct as they make them.

2/3 interest and full possession plus over 300 vials of high quality semen sell. We persuaded Doyle Perkeypile, Eureka, who purchased him in the National Shorthorn Research Center Sale, to part with 1/3 of his 2/3 semen interest. You can be mighty proud with this fellow in your pasture. Semen on storage does not sell.

W B WAVERLY 4th — We recognized the need to found a polled unit and searched for just the right poll for two years. Just any average poll wouldn't do. First, he had to be correct. Second, he had to show muscle development. Third, he had to show extra length of loin and quarter. Fourth, he had to have ample leg under him. Fifth, he had to be able to move. Sixth, he had to be deep in polled breeding and Waverly's pedigree is all polled but one.

All the bulls inspected during this two-year interval fell short in at least one of these categories. While on our way north, we stopped to see Wertz Bros., Bancroft, S.D. One look and we knew this was it. See for yourself sale day. His first calves will arrive in September.

This is how Mitchlett Royal Rosewood 2nd looked at the age of 4 months. She sells as Lot 4.

Here is Mitchlett Royal Rosewood 2nd, Lot 4, at seven months ready for the show ring.

MITCHLETT ROYAL ROSEWOOD — Although not the largest cow you will see here, she is still one of our favorites. She was accidentally bred and calved at 19 months and has produced each year since. Pictured above is a daughter that was shown extensively and walked away with many championships. This same daughter also sells, much to our disappointment. She also produced a grand champion steer, over 160 others of all breeds, an American Royal champion and her 1969 bull calf had one of the better sono-readings in the spring test. His average 205-day weaning weight was 635 pounds. When purchased by Merle Oldenettel, Haven, Kan., at 11 months he weighed 970 pounds. She has a red April 2 bull calf at foot by Scotsdale Radium that is a full-brother to the heifer pictured. And he's a dandy. Bred back to that E J F Good News 14th x, June 1.

This is how Mitchlett Royal Rosewood 2nd looked as reserve champion Shorthorn heifer in the 4-H show at the Kansas State Fair. That's young Clay Mitchell at the halter.

Mitchlett Royal Rosewood 2nd is now a valuable member of the Mitchlett cow herd. This is how she and her calf looked on pasture this summer. Both sell as Lot 4.

MITCHLETT ROYAL ROSEWOOD 2nd — This is the heifer we showed extensively in 1968-69. She is truly a beauty. From the Rosewood cow that has done such a great job. Her sire was classified AAA, was himself a Canadian International Bull Sale and Canadian National Exhibition champion. He is by Scotsdale Jupiter, grand champion of the International. We're hoping for an extra good home for this one, as she was intended to be at home on Mitchlett Farm always. She sells with red bull calf at side born June 5 by Mitchlett Radium 2nd. Rebred to Mitchlett Bulldozer on August 19. We would like to keep track of this calf.

PRAIRIE DICY 6th — She was purchased by young Mitchell at the top of the Jimmy Carter Dispersion. Only this dispersion could persuade him to part with her. You would have to look awhile to find one better. Her 1969 bull calf, the youngest on test, gained 3.46 pounds a day and had one of the best sonoray readings with only .21 inch fat covering. A 1967 daughter is a treasure at the R K Wintermote Farm and a 1968 daughter is the pride of Mitchlett Farms. Sells with a red July 4 heifer calf at foot and is rebred to W B Waverly 4th x on August 10.

ROAN GLOSTER 12th — This cow is a great milker with a perfect udder. She drops a calf every year. Her 1969 bull calf had the highest weight per day of age of 91 bulls on test at the National Shorthorn Research Center last spring. He weighed 900 pounds at 10 months with one of the larger ribeye readings. A daughter also sells. Bred to W B Waverly 4th x in May, 1970, she will calve in February. She has a 1970 roan heifer chosen by a neighbor to found a Shorthorn herd for the future of his infant daughter.
